### PROJECTS

#### **Full Stack Web Developer – Clothing-eCommerce**

Nov. 22 - Dic. 22

Henry, Buenos Aires, Argentina.

- Design and develop a Clothing eCommerce with SCRUM methodology, teamwork through GitHub work-flow, included admin and user Dashboard, payment gateway, questions and answers, reviews, cloudinary, responsive web, recommended publications, product creation, publications creation, email notifications, validated form.
- I contributed in the development and design of the product detail path, Q&A section, product search, responsive implementation of the page, Administrator Dashboard, user category modification, purchases, sales, users and publications statistics using ChartJs.
- For the Front-End we used technologies such as HTML, CSS, React, Redux, Figma, Bootstrap, React Bootstrap, ChartJs and for the Back-End we used NodeJs, Express, Postgresql, Sequelize, Socket.io, NodeMailer, Passport, JWT, Auth0.

#### **Full Stack Web Developer – Pokemon PI**

Aug. 22 - Sep. 22

Henry, Buenos Aires, Argentina.

- Design and develop a Pokemon App that included: searching, filtering, sorting and creation.
- Develop the app using for the Front React, Redux, MDB-React and Back developed in Node.js with Express. Database in PostgreSQL and Sequelize.

#### **Go-Travel Mobile app**

Jan. 30 – February 04 - 2023

personal project

- This website was designed to showcase front-end skills using React Native and TailwindCSS Technologies used in its design: React-Native, Native-Routing, Tailwindcss, Google Services. Design, animations, informative text, and writing created by me.

#### **Netflix-Simil**

Jan. 25 – February 08 – 2023

personal project

- Built with React, Next.js, and Material-UI for a seamless and visually appealing user interface.
- Incorporates Emotion (React) for styling and Heroicons (React) for adding icons to the UI.
- Implements React Hook Form for handling user input and validations.
- Allows users to play videos with the help of React Player.
- State management is achieved using Recoil.
- Written in TypeScript for type safety and enhanced development experience.
- Built with Tailwind CSS, Tailwind Scrollbar, and Tailwind CSS Text Shadow for adding shadows to text.
- Login/authentication functionality with Firebase for a secure and seamless user experience.

**e-Learning Web Application****Febr. 10 – March 10 – 2023**

eWaffle Company

- The eWaffle e-learning application was designed to provide organizations with a platform to upload and manage their learning materials, and control access to them. It also features a gamification system and filters to enhance the user learning experience.
- Technologies used in its design: React, Material UI, Tailwind CSS, MongoDB, and Auth0 for authentication.
- Contributed to the development of the eWaffle application, collaborating with a team of developers, designers, and content creators to ensure that the platform met the needs and expectations of clients.

**PROFESSIONAL EXPERIENCE****Full Stack Henry Assistant****Oct. 22 – Jan - 2023**

Henry, Buenos Aires, Argentina.

- Lead, train, coordinate and accompany a group of Teacher Assistants (28 people).
- Use methodologies for group dynamization.
- Use digital educational resources.
- Problem solving.

**Full Stack Teaching Assistant****Aug. 20 - Nov. 20 – 2023**

Henry, Buenos Aires, Argentina.

- Coordinate a group of students to achieve integration to the study group.
- Guide students in the first steps of the course.
- Assist to solve exercises and promote group collaboration (Pair Programming).
- Propose ideas to improve the Bootcamp processes.
- selected as Henry Assistant from a pool of 40 people.

**Ewaffle Company****Febr. 10 – May. 15 - 2023****Santiago, Chile**

- Security implementation expertise, with a focus on Auth0 and authentication protocols.
- Platform optimization skills, including design support, code refactoring, and documentation writing.
- Ability to make informed decisions regarding feasibility and functionality based on user needs and platform requirements.
- Experience in troubleshooting technical issues and identifying solutions.
- Proficiency in project management and collaboration, ensuring successful delivery of projects within scope and timeline.

**Team Leader – SeekitUp Company**  
Buenos Aires, Argentina

September 10, 2023 – January 13, 2024

- Led and coordinated a team of up to 13 developers, setting technical standards and selecting key technologies for mobile and web development projects.
- Implemented Agile methodologies (SCRUM) to optimize workflow and enhance team efficiency in project delivery.
- Spearheaded the development for a mobile application using React Native, TailwindCSS, and React Query, ensuring responsive design and intuitive user experience.
- Integrated Google API for authentication and Cloudinary for efficient image management, improving application functionality and performance.
- Developed the backend using SQL, Node.js, Express, and Prisma, ensuring robust and scalable performance.
- Later guided the team in web development, adopting React with Vite and TypeScript, focusing on code quality and scalability.
- Managed servers and deployments using AWS, ensuring high availability and security for applications.

**Mobile Developer – DataArt**  
New York, North America.

April 5, 2023 – Present

- Specialized in mobile development, focusing on React Native and TypeScript for frontend solutions in a dynamic, fast-paced tech environment.
- Expertly integrated a suite of advanced libraries and tools to elevate application performance and user experience.
- Committed to developing clean, scalable code, ensuring robustness and a seamless user experience in mobile applications.
- Collaborated closely with cross-functional teams to deliver high-quality mobile solutions, meeting project deadlines and client expectations.

**PROFESSIONAL EDUCATION**

Full Stack Web Developer. Henry Bootcamp. 700 hours of theoretical-practical course. 2022.  
Finished bachelor studies.

**LANGUAGES**

1. English c1 – Advanced.
2. Portuguese – Med.

## **TECHNICAL SKILLS**

JavaScript, React, NextJS, React-native , Redux, HTML, CSS, TailwindCSS, Node.js, Express, Sequelize, PostgreSQL, SRUM, ChartJS, Git, Trello, Figma, MDB, React-Query, TypeScript.

## **SOFT SKILLS**

- Teamwork: Demonstrates ability to work effectively with others and collaborate on team projects.
- Communication: Shows ability to communicate clearly and effectively, both verbally and in writing.
- Decision making: Demonstrates ability to make informed and reasoned decisions, especially under pressure.
- Adaptability: Shows ability to adapt to changing environments and handle unexpected situations effectively.
- Problem solving: Demonstrates ability to analyze problems and find creative and effective solutions.
- Leadership: Shows ability to lead teams and guide others to achieve common goals.
- Continuous learning: Demonstrates commitment to continuous learning and development of skills and knowledge.
